Re: Termite Action Group

Dear Richard

Thank you for the copy of the request for a grant through the Productivity Commission to allow the Termite Action Group (TAG) to continue it's work on cleaning up aspects of the termite control industry.

TAG has been tirelessly working to increase the professionalism of the termite control industry and to be a champion for the homeowners affected by termite damage.

We would be pleased to support any application for a grant to continue this good work.

Yours sincerely
